Software Engineer-II

I am a Front-End Developer with 3 years of experience specializing in building dynamic and responsive web applications. I have strong proficiency in HTML, CSS, JavaScript, and modern front-end frameworks like React.js, and TypeScript. My expertise includes integrating APIs to create seamless user experiences and delivering clean, scalable solutions. I thrive in fast-paced, collaborative environments where I can contribute innovative ideas and continuously push the boundaries of web development.

Experience

- **Terralogic Software Solution Pvt Ltd**
- Proficient: *UI Developer with hands-on experience in React and TypeScript, specializing in building visually stunning and highly responsive user interfaces using Material UI and Ant Design. Proven success in delivering seamless and engaging user experiences by combining strong design principles with modern technologies., TextEntry, EducationEntry, ExperienceEntry, NormalEntry, PublicationEntry, and OneLineEntry.*
- Demonstrated expertise in integrating APIs within React and Typescript applications to facilitate robust communication between front-end and back-end systems. Skilled in designing and implementing effective solutions that foster efficient data exchange and promote system interoperability
- Dedicated to implementing SEO -friendly practices within Angular and Typescript projects, contributing to improved online visibility and search engine rankings. Adept at problem-solving and bug resolution using JavaScript, committed to optimizing code for superior performance and ensuring a smooth user experience!

Education

Visvesvaraya Technological University, Mechanical Engineering Aug 2019 – Aug 2022

- CGPA: 7.9/10 (a link to somewhere)
- **Coursework:** java, Web development

Technical Skills

Web Development, HTML5,CSS,React, Javascript,Typescript,Sass,Tailwind Css

- **Library / Tool** : I have hands-on experience in developing React.js applications using libraries such as Material-UI (MUI), Ant Design, React-Bootstrap, and Tailwind CSS for creating responsive and modern user interfaces. I am proficient in state management solutions like Redux, Redux Toolkit, Zustand, and React Query, and I also have experience working with Storybook for component development and documentation. I utilize Git and GitHub for version control and collaborate efficiently using Browser DevTools and React Developer Tools for debugging and optimization. For project setup and builds, I am skilled with Create React App (CRA), Vite, and Next.js CLI. Additionally, I work closely with design tools like Figma and Adobe XD to ensure pixel-perfect UI implementation.

Projects

jaroeducation,

- Worked as a React Developer on the jaro application, where I was responsible for developing and enhancing key front-end features of the school's digital platform. My role involved creating dynamic and responsive user interfaces using React.js, integrating RESTful APIs for seamless data handling, and collaborating closely with designers for pixel-perfect UI implementation. • Tech Used: React.js, JavaScript (ES6+), Tailwind CSS /

Bootstrap, Strapi CMS

- Integrated iChat with Spotlight Search by creating a tool to extract metadata from saved chat transcripts and provide metadata to a system-wide search database
